Stainless steel precision chocolate machine (Remote Version)

1. Application

Several fluids commonly used in equipment: chocolate, candy syrup, jam and other flowing liquids.

2. Features:

- Thickened integrated granite stone bearing platform, the machine is stable and precise;
- The material tube is insulated throughout the entire process, easy to use and control;
- 600*400 large working platform;
- LED light source lighting, bright and soft;
- Precision pressure regulating valve, electronic digital display pressure gauge, clear, stable and easy to use;
- Precision temperature control, precision sensor $\pm 1^{\circ}\text{C}$;
- UI01/M1004 operating system, multiple iterative updates and upgrades, mature and stable
- Teaching programming is simple, easy to understand, easy to learn and easy to use;
- The precision dispensing valve can perform precise dispensing of materials with a small flow rate in a small gap;
- The core components of the whole machine are from first-line brands, which are stable and durable;
- The signal wire is made of shielded wire, which has strong anti-interference;
- All stainless steel body, environmentally friendly and durable..
